## Describe How the Program Supports Family Connections

Families are invited to attend admissions and be a part of the treatment team when deemed appropriate by social worker. The agency employs a parent advocate that assist parents who are moving through the system. Family therapy and home visits are a part of treatment plan on a case by case basis. Transportation for home visits is made available when possible. When possible therapeutically indicated, siblings are placed together and/or given family therapy.

## Special Interventions Available Internally

Structured and nurturing residential environments are developed to meet each individuals specific needs in the least restrictive placement. A multidisciplinary approach ensures each client with a treatment team working together to develop a plan working toward meeting both short and long term goals.

Description of how the program exceeds licensure ratios

Program follows agencies guidelines as established in Policies and procedures.
