## Describe How the Program Supports Family Connections

Program staff work to involve families in treatment planning and assist in transporting to visits with family as needed. Clients are encouraged to maintain contact with their families. The Treatment Team Coordinator is the primary contact with families.

## Special Interventions Available Internally

Youth are assigned a staff mentor at admission to help acclimate and support the youth throughout her stay. The staff are very focused on implementing the Risking Connection model of treatment with clients and have seen incredible results. The staff are committed to "hanging on" to difficult clients and to breaking down the steps for them so that they can achieve success. A number of these clients transition to SCL placements and the team is proficient at helping them apply for and prepare for that transition.

Description of how the program exceeds licensure ratios

The Treasure Home program exceeds licensure requirements by scheduling at least one staff for every 4 residents.
